

Logo Competition

Go to the project Facebook page ([here](#)) and VOTE ON YOUR FAVOURITE LOGO!!!

A design competition was promoted among students to develop the logo that will identify the Euro4science Toolbox. Proposals received from students of six European countries were accepted and you can vote on the one of your preference. The top-5 proposals will be submitted to the Euro4Science panel which will elect the winner. Participate until 15th July.

2nd Project Meeting

June was an important milestone for the Euro4Science2.0 project. After 9 months of execution it was the perfect opportunity to reflect and analyse the evolution of the different intellectual outputs. The meeting was held on 8th/9th June in Sofia - Bulgaria. Additionally the next steps for the second half of 2017 were outlined.

Exploring activities with students in STEM-based subjects

- 📍 A Euro4science dissemination event took place in Matosinhos, organized by INOVA+ in partnership with EPROMAT - Vocational School of Matosinhos.
- 📍 On 10th May at U. Aveiro, the project promotional video was presented.
- 📍 On 26th June Professor Luis Souto has presented the project at Education and new Developments Conference in Lisbon.

First Video Recordings for Euro4Science 2.0

Play Solutions, together with the Biology Department of the University of Aveiro, started video recording a set of educational videos. These will cover different topics which will then constitute one of the most important sections of the project's renewed website - the video library. You can see and download the video at the project website or at the Youtube channel. ([click here](#))
