

E4S 2.0 at Hands on Science 2018

Euro4Science 2.0 was present at the Hands on Science 2018, at University of Barcelona.

At the conference, the project coordinator Prof. Luís Souto, from Universidade de Aveiro talked about the implementation of the Euro4Science strategy and gave insights about the teachers following the train the trainers' workshops.

Euro4Science 2.0 workshops have started!

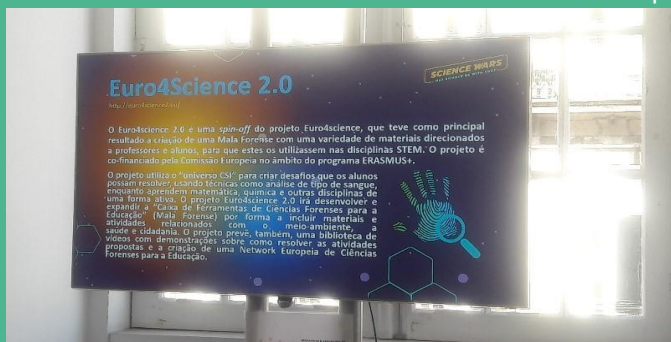

Between February and March, the Euro4Science 2.0 contents were tested in Lourosa, Portugal with teachers from Agrupamento de Escolas António Alves Amorim and teachers from José Estêvão School, Aveiro, Portugal.

Additionally, between 14th and 18th May, Universidade de Aveiro carried the first international workshop for teachers, in Turkey. With a great variety of laboratory activities, the workshop in Greece was also organized between the 24th and 28th September, at Thrakomakedones High School.

EURO4SCIENCE 2.0 AT EUROPEAN RESEARCHERS' NIGHT 2018

On the 28th September, in Porto, INOVA+ was present at the European Researchers' Night and promoted the Euro4Science 2.0 project! ScienceWars – May Science be with you! - was the motto and theme for a fun and engaging intergalactic battle for a more sustainable future with Science help.

3RD PROJECT MEETING

On the 15th and 16th February 2018, the Euro4Science 2.0 consortium met in Athens, Greece, to discuss the results achieved during the first 18 months of the project implementation and to define the next steps for the following period.
